

Other Things to Share

How would you share each of the following? Write about your thinking or use a drawing to show your solution.

1. 9 brownies shared among 4 people

2. 9 balloons shared among 4 people

Other Things to Share

How much money does each person get? Compare your answer to the answer you get using a calculator.

3. 9 dollars shared among 4 people

4. $9 \div 4$ on a calculator

5. Put a circle around each of your four answers above. They are all answers to 4 people sharing 9 things.

How are they different from each other?
How are they alike?
